

Abel Smith School

Situated in the middle of the county town of Hertford, Abel Smith Primary School is like every other school - full of children eager to learn.

Just like every other school the continuous movement of tables, chairs, children and bags has an effect on the building fabric.

Utilising the hard wearing properties of Intrad Wall Protection the school has reduced the amount of

damage to walls and corners, improved their redecorating cycle and maintenance costs as well as keeping the building looking cleaner and smarter.

Products Used:-
Intrad Plate
RC Cornerguards
