

SPECIFICATION CLAUSE

INTRAD Cleanflex- Satin White Hygienic Cladding System

Product Description:-

Intrad Cleanflex sheet is a hygienic cladding of either 2mm / 2.5mm PVC. It is durable and easy to clean, impervious to water and has good chemical and UV resistance. It can be sealed at all junctions and interfaces. It is suitable for either wipe down cleaning or pressure washing when installed as a system. Virtually maintenance free, Intrad Cleanflex is resistant to impact, chipping and flaking.
