INTRAD RP200 Plate

INTRAD RP200 plates are cost effective wall protection strips for protection to doors and walls. Ideal for use as a chair rail or general rubbing strip and as mid and low level kick plates on doors.

INTRAD RP200 provides economic, decorative protection. It is extremely versatile in application and is also quick and simple to install. INTRAD RP200 plate is the ideal solution where low cost protection against impact damage and wear is required.

Also available is INTRAD RP125. Used as a low level partner to the standard INTRAD RP200 when used as a rubbing strip on walls and doors.
