

Wymondley Residential & Care Home

This family run Nursing Home in the picturesque village of Little Wymondley have been using Intrad wall protection for many years. The owners are firmly of the opinion that using Intrad Wall Protection throughout their nursing home has repaid the investment many times over.

This family run business offers excellent levels of care. To achieve this they also need to maintain the quality of the home to the highest possible standard.

Intrad Wall Protection products have been carefully integrated with the decor of the home to keep the

building looking good, improve the hygiene levels and reduce their maintenance cost.

Intrad products have been used in the main circulation areas and key corridors to stop damage from wheelchairs and trolleys along with bed head buffers which have been installed in the bedrooms.

Profiles Used:-
Intrad Sheet
RC Cornerguards
BHB-100 Bed Head Buffers
